

Sage on Tour

Justin Case and Mia Sage have just posted two excellent books on Amazon. If you are an entrepreneur, or if you want to start up mini projects to become self-employed, then be sure to download *Starting From Scratch—Transforming Your Pleasure into Profits*, and *Growing Your Own Business*. Both are highly readable and easy to apply.

Beginning right now, Justin will be training courses in Hamburg, Berlin, Cologne, Amsterdam, London, Dublin, New York, Austin, Houston, and Honolulu for those who need coaching and personal training to improve your earning power. Check the calendar for details.

The Holidays

People across Europe are departing for summer vacations. This is a great time to relax and empty the mind so that you can reset your career in the autumn. As you are lounging by the pool or on the beach you will probably want to indulge in some light reading. If *50 Shades of Gray* isn't your thing, we would like to suggest *Starting from Scratch*. It is like having your own trainer with you. The information is both inspiring and educational. Just by reading this book you can be sure to get the energy you need to enhance your pleasure and increase your income for 2013.

If you prefer your inspiration in the German language, *Das neue Unternehmertum* will also be available as a download from Amazon in a few days. The English version has a lot more data. The German book is more precise. Either one will lift your business and your life into a higher level of perception. So give yourself the gift of leisure and pleasure as you enjoy the hazy, lazy, crazy days of summer.

What Are You Waiting For?

If you are completely honest with yourself, you know what is holding you back in your career. Everybody wants to make the world conform to his or her wishes.

Fortunately, gravity, electromagnetism, and business principles will never allow you to compromise. To find the real joy in life, you are the one who will have to change.

You can be right, or you can be rich. You can do it your way, or you can do what works. Our coaches and trainers stand ready to get you in shape, mentally, emotionally, and physically. You know you will--it's just a matter of when. So why don't you give up the silly fight and do what you know it takes to create an amazing life?

I Need Your Help

Hi. My name is Veronika and I am a voice coach. I am in the search for stories that are crazy, thrilling, erotic, fascinating, interesting, extraordinary and fun. The stories should be about your own voice or the voice of another person. I will publish them on my blog and on Facebook.

Here is an example of a story: A young man in Germany fell in love with the voice of the person who answered the emergency phone service. The man called the emergency number again and again until he was caught by the police. He said that he called so often because he found the voice sexy.

The best story will win a personal voice training with me. I am looking forward to hearing from you!

Greetings from Mia Sage

Justin and Xochi are on tour. She is going to Honolulu for a few weeks, and he is going to nearly every city you can imagine. I have to admit, I am already missing them.

Since this team came together, every day of business reminds me of the World Cup celebration in Germany in 2006. The studio is always light and exciting. With three people working as a team we accomplish more than 30 ordinary workers. We are knocking out books, delivering seminars, filming great shows (along with a horror movie), and putting together GWEN—the most amazing women’s entrepreneur conference ever conducted on this planet. You can build a team like this. We would love to show you how.

Meanwhile the *How to Talk to Men* book is selling well. We have entered a competition at Walmart that will put our favorite book on the shelves worldwide if we win. Please, please, please go online and cast your vote every day at the following link: <https://getontheshelf.walmart.com/product/1f71/How-to-Talk-to-Men>. Thank you so much for your support!

Monster Movie

Our annual media and film school produced many fine training videos on a variety of topics. Edith Roebbers created several terrific customer service-training films. Kathleen De Siena produced some excellent kinesiology films. Along with all the other projects, Mia created an impressive sales film to promote her *How to Talk to Men* book.

We all learned a lot about posting videos online and creating great images for our businesses. On the lighter side the class created a comedy/horror flick just for the fun of it. We will post this delightful parody in a few days, so watch for it on www.freecoachtv.com. And don’t miss our most recent music videos.

Self-Actualization

(Sept 16 - 22)

The truth will set you free. If liberation is important to you, Sage University's *Self Actualization* is the only course that tells the truth, the whole truth, and nothing but the truth. You will see your true beauty. You will get to know the deeper self that witnesses your life from a place of serenity and joy.

First this course will shatter your false ego. What a relief, to discover that you are not the pompous, frightened ass who has been making your decisions and grasping for empty imitations of life. The moment you realize who you are not, you will begin to sense the sweet, genuine character that is the actual self.

If you are ready to step off the cultural bus and discover your own direction, then this is the major life-changing event you have been waiting for. We will leave no stone unturned as we challenge you to release your inhibitions and fling your self into the great adventure of living fully.

Most people die with their music still in them. They waste years pursuing a career and lifestyle that doesn't really fit them. Here you learn to listen to the only true voice—the one that pulses in your heart and soul. If it is time to fulfill your true calling, we can provide the shock and the feedback you need to awaken fully.

Self-Actualization is our ultimate challenge. Only attend if you are ready to leave ordinary living behind and to slip into the game you were meant to play. Due to the intensity of this seminar we will begin a dialogue with you before the course to make sure that you are prepared to unleash your shadow and live life to the fullest.

Entrepreneur School

(Sept 24 - 29)

More than 80% of successful people earned their prosperity by creating, owning, and operating their own business. We show you how to achieve success by conducting *mini projects* and taking *baby business steps*. Forget about big ideas and venture capital that lead most entrepreneurs to ruin. Come to Ibiza to feel the vibe, or attend this vital course via Skype. Let us put you on a safe, proven pathway to personal success.

Attending this course also gives you the skills you need to teach your own 10-week Entrepreneur School, or to provide trainings as a professor of Entrepreneurship for Sage University.

The Arts of a Woman

(October 01 - 20)

A woman requires 3 weeks of luxury and femininity to break the cycle of stress that steals away her receptive, nurturing qualities. Few women today get to enjoy the soft, sweet essence that goes with femininity. The total woman lives in harmony with men and enjoys the finer things in life. She is the master of conversation, music, luxury, entertainment, sexuality, fine cuisine, and multiple other arts that flow from a woman when her needs are met and she feels cherished and cared for.

Too many women today spend their lives filled with resentment and insecurity. They unconsciously fight or work with men, rather than tapping into the ancient wisdom that flows between the sexes. Do you really want equal opportunities to fight in the military or compete in the brutal competition of political and corporate systems? Or are you yearning to express everything kind and gentle in your nature?

The *Arts of a Woman* provide 20 days of pleasure and practice in the feminine arts. You can earn a lot more and enjoy greater fulfillment when you unleash your feminine nature. Join us on Ibiza for the experience of a lifetime.

Enchantment

(October 29 - 31)

Every morning sunrise is a miracle. Every breath you take is a wonder. Yet most people take life for granted. Blinded by the doctrines of religion and science, few people can feel the pulse of life all around them.

When people see miracles or notice subtle patterns that reveal other realities, most folks shrug it off. But some folks learn to take their visions seriously, thus opening the door to a magical realm.

People who see what others overlook enjoy richer, fuller lives. They enjoy the presence of divine love. Their faith is strong because they don't require convoluted "proofs". Rather, they enjoy the mysteries of life and sense the sweetness of the enchanted world in which we live.

Join us for *Enchantment* if you are ready to see beyond your mental images. Spend a few days contemplating the marvelous world in which you live and the astonishing individual that is you.

GWEN

(November 01 - 04)

Masculine oriented businesses are falling from the stock market at an unprecedented rate. Feminine service-oriented businesses are booming. As traditional corporations fire millions of people, women entrepreneurs are hiring them as contract workers, effectively launching a new global economy.

So who are these new business leaders? Three women start a new business for every man who does so. Three out of four business failures today are by men. That means that women entrepreneurs outnumber men more than 6 to 1. And women grow their businesses as labors of love, so they can raise their families and balance their personal lives as they earn.

Your success depends on the quality of your connections. If you are ready to rub shoulders with other women entrepreneurs from across the face of the globe, take this opportunity to attend GWEN--Global Women's Entrepreneur Network. Four days on Ibiza and 400€ will be the best investment you ever made.

The majority of successful people earned their prosperity by creating, owning, and operating their own business. Successful Sage University Graduates show you how to achieve success by conducting *mini projects*. Forget about big ideas and venture capital that lead most entrepreneurs to ruin. Come to Ibiza so we can put you on a safe, proven pathway to personal success.
