

Sage on Tour

The summer heat wave has passed. These next few months on Ibiza are Heaven on Earth. Days are warm and sunny, with cool tropical breezes. The tourists are returning in droves to their homes and jobs, leaving this gorgeous place to a few discerning people who appreciate the beauty of autumn on the Mediterranean.

We have scheduled our most fascinating courses during this season. **Entrepreneur School** is coming up this month for those who want to increase their incomes in 2014. In October we offer **Enchantment** for those who want to transcend ordinary perception and fully enjoy the magical realm of the senses. Then **People Reading** in November will help you achieve profoundly loving connections with other people.

Starting From Scratch

Soon you will be self-employed. Governments and corporations are replacing people with robots as quickly as possible. Just as the automobile replaced the horse and buggy in the last century, brilliant machines will soon replace human workers in this century.

The new entrepreneur economy is better in every way. Already we are seeing millions of people serving one another, providing kindness and pleasure that machines can never match.

You will need clear, thorough instructions to start your business. Justin Case and Mia Sage have written the perfect manual—**Starting From Scratch**. You can download the e-book from Amazon. Last week they upgraded their delightful entrepreneur manual and uploaded the second edition.

Now they are improving their second book—**Growing Your Business**. But most folks should start with the first book and attend a business incubator before purchasing the advanced manual.

It's Not You

If you are not fulfilled by your career or if you aren't earning the income you deserve, it isn't because you are stupid or unworthy. Nor is it because the world isn't fair. The problem is your personality.

You know that you are a loving, caring individual. But other people aren't getting the message. *Persona* means mask. Your habitual facial expressions and endless mind chatter have created a false image that hides your authentic goodness. So too few trust you enough to spend money for the services you offer.

Most psychologists believe your personality is fixed. But great coaches know how to help you build character to attract people who can enrich your life in every way.

Our mission at Miamar is simple—we empower entrepreneurs and executives to be effective in their careers and to find fulfillment in their lives. Our approach uses small incremental steps to help people find their true calling and to transform their pleasure into services for other people.

Do you enjoy dance, touch, movement, office work, public speaking, entertainment, writing, singing, playing in nature, or cleaning up the environment? You can combine any or all of these activities, and countless others, to create delightful mini-projects.

First those projects supplement your income. Then some of them grow into small businesses that provide for you and the people you love. You can learn the basic steps and build a web of friends to help by attending GWEN IBIZA, November 1-5.

ACTualizing - Hamburg

Greetings from Mia Sage

Times are changing. We will all have to adapt our careers to remain prosperous in the new economy. Fortunately, it's fun and easy to discover your calling and learn service skills that will create a new life for you.

Justin Case is on tour in America. If you want to discover *What to Do with the Rest of Your Life*, check out his calendar and attend his seminar in a city near you. If he hasn't scheduled your area yet, contact us, and we will book him there. If you sponsor him you can share the responsibilities and the income from his events.

It took me five years of interviewing competent, talented people before I could find a trainer as kind and compassionate as Justin. Men and women alike enjoy his playful, friendly approach to training. His sensitivity brings clarity to your thinking and imparts the confidence you need to take the next step in your life.

When you are wandering around in a great forest it is reassuring to find the path. Justin is the guide you need to find your way. Find the security and fulfillment you need by signing up today.

Everybody Hurts--Sometimes

When REM sings the song by that title, we realize for a moment that life tests all of us. Sometimes it seems that the Sage University culture is playful, while the real world is filled with conflict and struggle for survival.

Our aim is not to be frivolous. Over the years we have learned from our clients that intense play creates serious fun. Many of our graduates earn more by sharing their pleasure than they ever did by working hard at boring jobs.

The new entrepreneurship is all about service. The more we enjoy our lives, the more attraction our business projects generate. This is the era of the storyteller. Blogs, books, films and seminars can add a lot to your income. When you amuse yourself, you gain the fans you need to prosper.

Entrepreneur School

(Sept 24 - 29)

More than 80% of successful people earned their prosperity by creating, owning, and operating their own businesses. But many new entrepreneurs don't have all the skills to earn the income they need.

It's not enough to be a coach. You also must learn the *business* of coaching. We show you how to win clients for life by conducting *mini projects* and taking *baby business steps*. Forget about big ideas and venture capital that lead most entrepreneurs to ruin. Come to Ibiza to feel the vibe, or attend this vital course via Skype. Let us put you on a safe, proven pathway to personal success. Attending this course also gives you the skills you need to teach your own 10-week Entrepreneur School, or to provide trainings for others.

Enchantment

(October 29 - 31)

Every morning sunrise is a miracle. Every breath you take is a wonder. Yet most people miss the magic. They take life for granted. Blinded by mental images and habitual ideas, most people live in a mental picture of the world.

Rarely do people feel the pulse of life all around them. Few people notice subtle patterns that reveal other realities.

Enchantment creates the conditions for a peak experience by opening the door to a magical realm. People who see subtle vibrations enjoy fuller lives. They enjoy the presence of divine love. Their faith is strong because they don't require "proofs". Rather, they enjoy the mysteries of life and sense the sweetness of the enchanted world in which we live.

We invite you to join us as we explore this marvelous world in which we express our immortal existence.

People Reading

(November 5-10)

When you read a book you learn useful information in an entertaining format. But when you can read another person you enter directly into a vast world of love and mystery. You reach the intimacy and trust you desire.

Most folks think they "know" another person, when in fact they are looking through a curtain of opinions, ideas, assumptions, hopes, and fears. Studies show that professional "people readers" are no more accurate than the average person. We show you much more.

This is our specialty. Along with body language, and vocal tones we demonstrate profound awareness of 'micro' expressions and reveal patterns of subtle vibes that let you see the genuine being behind the human face.

GWEN

(November 01 - 05)

When women get together they speak intimately and try to make things easier for one another. The moment a man enters the conversation, the entire tone changes. In the presence of men women become more competitive. That is because the feminine nature is receptive. We are quick to take on male qualities that don't reflect our values or priorities.

Men commonly believe that women are highly competitive with one another and that they are unreliable in business. They don't realize that women reflect masculine qualities when men are present.

That is why women from many different cultures created the *Global Women Entrepreneur Network* as a series of annual conferences and local meet-up chapters so that they could assist each other to build careers suited to their feminine nature. Women need other women to help them earn the money they need to care for their families and to enjoy the financial freedom to travel and grow their web of women business associates.

We need your participation to create a woman-friendly business environment that spans the globe. You can help by attending GWEN, thereby making your own business projects more effective, and then by helping us coach other women.

By attending **GWEN 2013** on Ibiza you are taking a very important step toward a better income for you and the people you love. You are also becoming an essential link in a level playing field in which women earn equally with men without compromising their female nature.

GWEN is more than a venue to share your services and products with women from all over the world. This is a conference that demonstrates business from the heart. While men storm the castle gates, we grow our businesses, just as we raise our children. Our way isn't quick or ruthless. We put people first. As we recover our nurturing qualities we put them together with good friends who return our kindness.

Women-owned service businesses are booming in the 21st Century. As traditional corporations fire millions of people, women entrepreneurs are hiring both men and women as contract workers. With global unemployment so high, there are plenty of talented young people who would appreciate the opportunity to work with you as project partners or interns.

Are women entrepreneurs becoming the new business leaders? Here are some interesting statistics: Three women start a new business for every man who does so. Three out of four business failures today are men. That means that women entrepreneurs outnumber men more than 6 to 1. Men might rule the corporate world. But with entrepreneurship, women are free to work on our own terms at our own pace.

Women need the freedom to grow their businesses as labors of love, so they can raise their families and balance their personal lives as they earn. Your future depends on the quality of your connections. If you are ready to rub shoulders with other women entrepreneurs who can help you expand into new countries and cultures, take this opportunity to attend *GWEN--Global Women's Entrepreneur Network*.

Here is the schedule:

October 31st –evening Halloween Party (optional). You can also invite your man to join us for this light-hearted celebration, beginning at 9:00 PM.

November 1st –We meet at 6:00 PM to mingle and socialize. The evening presentation begins at 7:00 PM.

November 2-4 –GWEN officially begins each day at 3:00 PM. There will be a dinner break before the evening session. Your mornings are free for sightseeing. Or you can use them to attend free classes in Yoga, Singing, Dance, or a variety of free business courses to help you find your true calling, improve your business skills, and learn the steps for growing your business.

November 5th –The last day is an optional business fair (Messe) in which the GWEN participants can either speak or present their services in small break out groups. These events will go on all day. Please let us know if you plan to make a presentation so we can provide a room and a time slot that fits for you.
