

Summer Semester

The summer semester at Sage University is filled with events that are sure to make your life more exciting and to give you the skills to advance your career. *Attactics* shows you how to act and what to say when difficult people put your lights out. In *Film and Media School* you learn to produce your own Internet show, and how to develop the charisma and presence that attract raving fans. And then *People Reading* enables you to read the desire and intention of others like a book so that you know how to get what you want by getting others what they want.

New Web Shop

We want to thank you for your enthusiastic response to the new Sage University website. Bjorn Schöne and Inna Meisner have created a thing of beauty. When you are ready to upgrade to a high-quality professional site, you can't do better than to work with these conscientious, generous people. Their patience and integrity are truly inspiring. And like us, they don't stop until they get it right.

With this upgrade, there is no more need for faxing registration forms or signing up on the phone. You can now choose your favorite courses and register online within minutes. You can also download audio and video programs so that you can study from home at your leisure.

We have about 100 active courses, and our trainers and instructors are adding exciting new topics every month. If you have a quality seminar to offer or would like to open a new department for Sage University, let us know. If you have a Master's or Doctorate in a business related field, you can also add new 6-day courses or instruct existing ones.

Now would be a good time to synch your calendar with ours to be sure that you get the course that fits you best. Every class enables you to restore your profound perception of yourself while you master the skills for better living and higher earning.

Special Events

We are delighted to introduce new, exciting low-cost summer school classes with some of our students and alumni. In the first weekend in August you can learn to build your dream space and to acquire skills that will make you shine in the company of high-level business people. For only 150€ you can attend either *Designing Your Dream Home* with renowned architect Andreas Taufenbach or *Wining & Dining with the Rich* with Pia von den Hoff. Create a new web of clients and friends with essential skills designed to transform your dreams into reality. E-mail to learn more or to enroll.

Hamburger University

Did you know that one of the best management training centers is the corporate university owned and operated by McDonalds? Hamburger University is not located in Hamburg. Since 1965 more than 275,000 people have attended highly relevant courses that prepare students for management positions in the food industry. Graduates now hold leadership positions in corporations throughout the business world.

Corporate universities come in all shapes and sizes. Their education is spot on for their industry. So Motorola University teaches everything from electronics to management to cross-cultural training. At Sage University we turn out entrepreneurs who can initiate lean start-ups to provide innovative services.

Greetings from Mia Sage

Death is a beautiful transition from solid form to a wave of pure love. That doesn't make it any easier on those of us who miss the ones we love. So it is with a mixture of sadness and joy that we mourn the passing of [Jennifer Windham](#)—a true friend to all who had the privilege to share her time among us. Her love remains present and attentive. Her voice goes with us in the sound of the wind and vibrations of unseen forces that we feel in our hearts.

Many things have happened at Sage University in the past months. But none of them are on my mind as much as the passing of Jennifer. Her intelligence and kindness touched all of us. Now she has left her body behind, no doubt to carry on the loving care she bestowed on everyone from a higher place. I want to thank all of you who have shared how much you appreciated Jennifer and how you feel her love in your hearts. Her sudden and unexpected departure has brought us closer together and reminded us how precious life is.

My condolences go out to her family and her circle of close friends.

Sage University Professors

Trainers, coaches, and seminar leaders for Sage come in all shapes, sizes, and genders. We don't settle for the practice of tolerance—we require heartfelt acceptance of people from every walk of life. Our professors, on the other hand, have doctorates, medical degrees or specialty degrees in fields such as architecture and law. They are very serious about education, but not about much else. The photo on the right is the head of the Economics Department. His brilliance, real-world experience and qualifications are exceptional, as is his sense of humor. Call to learn more about his unique approach to finance, theater, and self-expression.

Media & Film School (July 25.-30.)

Your social media presence is a treasure—the equivalent of a storefront window on Madison Avenue. All of us will earn better and enjoy life more by posting professional quality video blogs and Internet presentations that sizzle. Unfortunately most You Tube and Facebook offerings are repetitive, sloppy, and boring. Poor lighting, mediocre filming, and weak content rarely entertain or educate.

Media & Film School is 6 days of delightful filmmaking designed to awaken your sense of humor and improve your style and presentation. Together we will create music videos, talk shows, and video blogs that will win fans for life.

Designing Your Dream Home (August 01.-02.)

Whether you want to build your own home or optimize your current living space, you can greatly enhance your environment. At Sage, we understand the connection between your domicile and your sense of well-being. That is why we are pleased to sponsor a 2-day learning experience with renowned architect Andreas Taufenbach.

People usually find a place to live, and then make the best of it based on vague feelings. Rarely do they learn the aesthetic and architectural skills to create their ideal living space. To rise above the mundane it is essential to understand design in the larger context of the socio-political environment.

This delightful workshop is based on individual interviews between you, Andreas and senior professors from Sage University. We will probe your heart and mind to discover the images and structures that touch you most deeply. Join us at Mia Sage's Octagon to learn how to design your dream home.

Wining & Dining with the Rich (August 01.-02.)

According to the Carnegie Institute your success in the new service economy requires 85% people skills and 15% business skills. Today it takes more than technical knowledge to grow your business network. Winning and keeping top clients depends on “people skills” including etiquette, manners, and polite conversation.

Now more than ever your career and social skills determine your success. Knowing the rules of proper etiquette is essential. Good manners, style and wardrobe reflect on your company, your product and your credibility.

Upgrade your social circle by spending a couple of delightful days learning the art of belonging with first-rate clients.

People Reading (August 04.-09.)

Have you ever watched a great coach bring out the best in people, and wished that you had that ability? People reading gives you the power to communicate with people on a deep level.

To understand what people can achieve you must be able to read their desire and temperament. Just as a great horse trainer selects and trains animals based on their physical and emotional characteristics, coaches must be able to quickly and accurately "read" the potential of every individual.

You can easily develop the extra sensitivity and clarity you need to search people deeply and to bring out their hidden qualities and talents.

If you earn your living by coaching, or training, or selling, or leading people, you will double your effectiveness by attending this course. You will leave this class with the ability to see human qualities that are invisible to others.

GWEN Berlin (August 21.-24.)

GWEN is a new spirit of cooperation between women entrepreneurs. While corporate careers favor competitiveness, entrepreneurs enjoy the benefits of innovative forms of cooperation.

The 4-Day GWEN Conference brings together business owners in a festive event where women gather to share their experiences and learn valuable skills that are not taught in business schools or success seminars.

Forget about traditional networking meetings with everyone selling. Embrace a new approach. GWEN is an enlightened business forum for women who understand the power of generosity to create attraction and appreciation for a future that belongs to all of us.

Jerry Karzen: Reading the Body (October 24.-25.)

The human body is a multi-sensory instrument, capable of great awareness. When you receive accurate feedback your body recovers the vivid perceptions you enjoyed in early childhood.

Jerry Karzen is the most experienced, effective practitioner we know. His skills and insights are woven throughout the Sage University curriculum.

In this delightful 2-day interview training Jerry will show us how he observes posture, breath and movement by sharing his observations with each participant. Our most experienced trainers will assist him to mirror your physical body from various perspectives.

This class will fill up quickly, so be sure to reserve your space early. Then plan to remain on Ibiza for a few more days to attend Jerry's 4-day *Awareness through Movement* class.

Awareness through Movement with Jerry Karzen (October 26.-29.)

Sage University is pleased to introduce Jerry Karzen for *Awareness through Movement*. For over 30 years his work has greatly influenced our understanding of people and our approach to learning.

Jerry will conduct four days of movement training and demonstrate hands-on *functional integration* in October on Ibiza. These few precious days will bring a whole new awareness and sense of ease to your life. Jerry will examine your mind and body, and help you find new ways of seeing and new ways of being. You will breathe deeper, move easier, and connect more vividly to the world around you. You will also experience physical changes that will enhance your aliveness. As your body releases unconscious pain and numbness, your senses will awaken.

This is a rare opportunity to work with a master practitioner at the top of his profession. Email today for more information or to enroll.
