GWEN Ibiza

In a recent event in New York, five women made a lovely, feminine connection. They hailed from Korea, Japan, China, America, and the Ukraine. By focusing their attention on the bond they shared as women, they consciously generated a kind, generous connection that transcended all their cultures. When two men entered the room, they determined to remain connected in that magical space that women sometimes share when they achieve true friendship. As a result they lifted the men into a surprising new dimension of harmony and pleasure.

The receptive yin energy of women appears fragile in the rough and tumble world of business. We created GWEN to provide women with the skills and the discipline to never back down and to raise the bar for men who want to be able to tap into the wise, kind world in which women practice nurturing rather than succumbing to masculine forms of competition.

It isn't enough for women to get equal pay and promotions in a male-dominated game. Our sensitivity and shared awareness adds tremendous value to the game of business. Men and women have a lot to give one another. GWEN is where you come to learn how to make your contribution.

We got an unexpected heat wave on Ibiza in July and August—the hottest on record. After a couple rainy days, we are enjoying the first days of fall. The sunshine is nice and the sea is as warm as a bathtub. The forecast calls for lower temperatures, down to 28 degrees Celsius, over the next few weeks.

Fall will come soon enough, followed by our usual mild winter, so we are soaking up the sun while we can. The beach is doubling as our holiday location and office. The tourists look at us strangely when we spread our work out on a beach blanket. But when they ask, we tell them that our job requires us to conduct our business from the seaside.

Over the past several years, GWEN (Global Women Entrepreneur Network) has grown into an international phenomenon, bringing together women from all walks of life to share their expertise and compassion. This year the main conference will take place on Ibiza just prior to the Annual Learning Conference in October.

This celebration of innovative business practices focuses on how to earn your living while developing the sweet, nurturing qualities of the feminine spirit. You are most welcome to join us in Ibiza to design your business to suit your true nature.

Greetings from Mia Sage

Women today have more options than our mothers and grandmothers. We can choose to become homemakers, or take corporate jobs, or we can transform our passion into our profession. I chose the latter. Mine is no easy life. I often feel that I am swimming with sharks. Nevertheless, I adore my career.

There is no easy life. Every path has impossible challenges. The journey between the cradle and the grave is brief and brutal. You have to earn a living, and you have to stave off the people who want to hold you back.

I was fortunate to find the vital force in my heart so that I had an inner light to guide me right from the beginning of my adult life. I also found friends who are dedicated to me living life on my own terms.

This week I am preparing for the *Geisha School* in Thailand in December. You wouldn't believe how much work goes into finding the right location and making sure that all of the women get the support they need to make this the adventure of a lifetime. I love every moment of the planning, the preparation, and the pleasure we will share.

Kindness

Typical business schools organize their curriculum around theories of commerce. At Sage, we organize around kindness. Traditional capitalism organizes around exploitation of natural resources and human resources. We prefer the principles created by Peter Drucker—instead of focusing on profits, we design our approach around the practice of acquiring and keeping customers. The message that we emphasize to our student-associates is to earn trust by treating people with utmost respect. Our courses are playful, humorous, and irreverent, closer to Jon Stewart than Adam Smith. If you aim to earn your living by traveling and serving other people, we might be the right school for you.

Coaching from the Heart - Online (September 26.-27.)

You can learn the tools of professional coaching in one inexpensive weekend. Learning-by-doing is the most effective, fun way to learn coaching skills.

There are plenty of courses that teach outmoded programming skills and techniques that dwell on your past. But coaching is more than self-improvement. Overcoming limitations is good, but it doesn't release your passion and potential.

Coaching from the Heart goes beyond academic learning and problem solving. If you want to earn your living as a coach, this course will show you how. Or you can use these communication tools to be a better parent, teacher, or friend.

How to Talk to Men Advanced New York/Chicago/Austin (October 01.-04.)

When a woman falls in love she feels on top of the world. Waves of happiness fill her body and mind. We all know how it feels to love another person so deeply. We always long to find our way back to that feeling.

But when love fails, the pain is devastating. Few women ever find their way back to the natural high that accompanies true love.

This 4-day seminar is designed to open your heart. It will restore your ability to immerse yourself in love. This course provides a safe environment to release the anger and anxiety that have blocked your link to men. With greater awareness you will be able to discover your defence mechanisms and see how you unconsciously provoke men. Then you will learn exciting new ways to get what you want from them.

International GWEN Conference Ibiza (October 19.-23.)

For over a decade now the free-agent entrepreneurs of GWEN have been assisting one another to grow their businesses by expanding their connections.

In October 2015 we return to our roots on the beautiful Spanish island of Ibiza for the ultimate celebration of the feminine spirit in business.

Whether you need a mentor or want to be a mentor, GWEN International is where we gather to meet women from different cultures and countries who share similar dreams and aspirations.

Your stories open doors of perception for other women. If you are ready to transcend ideas by putting your dreams into action, please reserve your space and buy your ticket to Ibiza for the experience of a lifetime.

Jerry Karzen: Reading the Body (October 24.-25.)

The human body is a multi-sensory instrument, capable of great awareness. When you receive accurate feedback your body recovers the vivid perceptions you enjoyed in early childhood.

Jerry Karzen is the most experienced, effective practitioner we know. His skills and insights are woven throughout the Sage University curriculum.

In this delightful 2-day interview training Jerry will show us how he observes posture, breath and movement by sharing his observations with each participant. Our most experienced trainers will assist him to mirror your physical body from various perspectives.

This class will fill up quickly, so be sure to reserve your space early. Then plan to remain on Ibiza for a few more days to attend Jerry's 4-day *Awareness through Movement* class.

Awareness through Movement with Jerry Karzen (October 26.-29.)

Sage University is pleased to introduce Jerry Karzen for *Awareness through Movement*. For over 30 years his work has greatly influenced our understanding of people and our approach to learning.

Jerry will conduct four days of movement training and demonstrate hands-on *functional integration* in October on Ibiza. These few precious days will bring a whole new awareness and sense of ease to your life. Jerry will examine your mind and body, and help you find new ways of seeing and new ways of being. You will breathe deeper, move easier, and connect more vividly to the world around you. You will also experience physical changes that will enhance your aliveness. As your body releases unconscious pain and numbness, your senses will awaken.

This is a rare opportunity to work with a master practitioner at the top of his profession. Email today for more information or to enroll.

Astrology as Metaphor - Online (November 09.-12.)

Astrology is a form of mythological metaphor that can communicate higher truths. Logic and reasoning are essential aspects of human intelligence. But there is more to life than facts and figures. Playful pattern recognition adds to the equation by stimulating intuition and wisdom.

People grow closer by sharing profound experiences that hard sciences can't fathom. The human soul speaks a language of its own. This is an online interview weekend in which you will discover inner truths that you can only access through metaphor. Our trainers inquire about your Eastern and Western birth signs to elicit your personal mythology. Your stories reveal your subconscious wisdom across four dimensions of human experience.

Get to know yourself better as you draw closer to good friends. Join us for a few days online, to share the miracle of our existence together on this lovely planet.

Metamorphosis - Online (4-weekend series)

Lowly caterpillars crawl through life. Progress is slow and tedious. Birds, lizards, and other animals feast on them. Nevertheless, a few of these humble insects endure long enough to build a cocoon and go into hibernation. Imagine the shift in awareness when they awaken in a new body, replete with wings and a desire to fly. The butterfly is one of the most beautiful creatures in all of nature. Metamorphosis is real transformation.

Have you done what you came here to do? Have you sung, danced, and played? Have you made your contribution? Have you lived your dream? When the end comes, will you transcend life knowing that you gave it everything?

We created this seminar series because transforming people brings us great joy. You can apply for this life-changing event by emailing info@sageuniversity.com to set up an interview.
