

## Some Like It Hot

### Thailand

Thousands of tourists flock to Thailand each winter to enjoy the lovely beaches and the loud celebrations. We go for another reason—to deepen our knowledge of Thai massage and to more fully embrace the loving spirit of the Thai people. This year we are offering Geisha School in the South Pacific. A few fortunate women will undertake profound study in the art of entertainment, with a special focus on touch and movement.

Life is a splendid adventure, and all the more so when you journey to exotic locations with true friends that know how to share the spirit of loving kindness. You will savor every moment of this marvelous adventure. And when you return home, you will be an entirely new person, one that exudes the peaceful ways of older, wiser cultures.

The most important lesson you can learn in this life is the art of warming and opening your heart. When you speak from the heart and see with loving eyes, everyone and everything in your life becomes more precious and beautiful. We depart in a few days, so if you want to travel with us, be sure to make your reservations right away. We look forward to welcoming you in paradise.

The Sage Team lifted off Ibiza to begin their winter tour. They will be following the sun, from one tropical location to another. We have been training entrepreneurs in beautiful locations since 1980. Our graduates now own and operate their own successful businesses.

As smart machines and robots continue to do the mundane thinking and heavy lifting, we are learning to earn our incomes by transforming our passions into our professions. We invite you to join us in this brave new world, where laughter is more valuable than labor. Business fundamentals and people skills are your hidden treasure in this new entertainment economy. Join us this winter to learn more about serving other people with your pleasure.

### Metamorphosis

You can earn your living by doing what you love. But you will need a team and good training to make you dreams come true. That is why we offer the 4-month Metamorphosis course online. This class is designed to transform you from a crawling insect into the elegant winged creature that represents your higher self.

Your life is an unfolding series of miracles. Only your mind stands in the way. We challenge you to deliver seemingly impossible results, and then coach you fiercely to provide the force you need. Metamorphosis requires weekly check-ins and teamwork with classmates to provide the necessary accountability. Be a part of the winning team for 2016.

## Thank You Jerry!

The most fortunate event in one's life is to spend some time in the presence of a living master. That is why we are so grateful for the precious days we spent together with Jerry Karzen on Ibiza. It will take many years before we are able to process the lessons he provided.

There will come a day in the distant future when you realize how your mind and body experienced a turning point here--a profound shift that reorganized every aspect of your life. By that time, *you* will be the living master whose kind touch and movements wordlessly transform anyone wise enough to devote a little time to absorb your wisdom.

## Greetings from Mia Sage

It is no secret that I am a nerd in a skirt. I love everything tech. So you can imagine how excited I am to have replaced our aging video studio with new state-of-the-art equipment. Coincidentally, Ibiza is installing new fiber optic cable to make our Internet more vivid. The confluence of events will make it possible to deliver much higher quality video training for professional coaches and entrepreneurs.

Mastering the new 4K standard is extremely complicated, so you can imagine how much fun Justin and I have been having, running new wires, learning new jargon, and working out all the bugs that show up when a business makes the leap to a new level of performing. We will upload a few videos before we leave for Thailand. And when I return we will put in the work to make sure that [www.freecoachtv](http://www.freecoachtv) and Sage University Online will come to your laptop or smart phone with quality that dazzles.

We are also looking to expand the Sage Broadcasting Network, so be sure to create lots of exciting new programs for us to share with our clients around the world.

## Filmmaking

The greatest expansion in the new economy is entertainment that enlightens. At Sage, we don't try to force feed you with facts—you can get that from Google. Instead we collaborate with you to present delightful seminars, broadcasts, and online training that sizzles.

In the coming year we are also expanding to filmmaking projects that tell compelling real-life stories designed to inspire and to awaken the body, mind, and soul. We will begin shooting by spring. If you know of a great saga, please share it with us, so that we bring your most cherished ideas to life.

Awareness through Movement

## Metamorphosis Online

You really can create an amazing career and an exciting lifestyle. You just can't do it alone. Nor can you do it with personal friends or corporate associates. They just don't have the skills and the attitude you need to generate the necessary initiative in the quest for your own personal innovation.

The best way to learn how to build your own team is to join our team to learn how to play the game of business. Our entrepreneurs rank among the most effective players in the world of business ownership. Traditional jobs don't pay very well. Nor do they offer much chance for advancement. True success and fulfillment comes when you find your own true calling and learn to lead the teams that can take you to the top of your profession.

Have you done what you came here to do? Have you sung, danced, and played? Have you made your contribution? Have you lived your dream? You can apply for this life-changing event by emailing [info@sageuniversity.com](mailto:info@sageuniversity.com) to set up an interview.

## Trainer Training (December 01.-05.)

Have you ever listened to an enchanting speaker, or watched a charismatic trainer, and wondered how it would feel to inspire people like that? The person in front of the room feels the excitement, gets the attention, earns the money, and has the best chance to find the right mate or partner.

Great communication is a skill. It isn't a talent that some people have and others don't. Public speaking is a craft that you can learn, like carpentry or piano. Your voice becomes an instrument that fascinates and inspires.

If you attend this course and put in the practice, you will master the art of lighting up an audience and filling a room with excitement. The 5-day **Trainer Training** provides the rehearsal you need to make sizzling presentations that attract large, enthusiastic audiences.

## Geisha School – Koh Samui (December 7.-10.)

Serenity brings a woman to a feeling of deep calm. As her body releases pent up anxiety and anger, her sweet feminine nature emerges. Her peaceful aura soothes men and brings out their strong, protective qualities.

In these tumultuous times women often lose touch with that wise, sweet side of their nature. Too many succumb to the hectic pace of living, to the demands of raising a family, or to the stress of earning a living.

**Geisha School** is a light, sweet experience that brings women together for celebration of the womanly arts. If you are ready to enter a new dimension of love and respect with great men, we invite you to participate with us for four days of delightful dialogue and exploration of the feminine mystique.

---

## Enchantment (December 28.-31.)

When you can hear the music in the stones and sense the sweet nothingness behind reality, you can live your life in a magical world. Your eyes shine and your body glows with calm excitement, because you are connected to the rhythm and pulse of nature.

Few people are in tune with the miracle of life. Too many people feel stressed or empty. They are choking on all the jangled signals that vie for their precious attention. Fortunately you can easily restore your true nature. Join us just after Christmas on Ibiza to celebrate the ancient, sacred celebration of nature.

Enchantment is a 4-day supernatural journey that will restore your sense of wonder. We will explore elements of shamanism together with physics so you can perceive the metaphysics that give rise to our existence. In addition we will practice brief, loving guided meditations to awaken your higher intelligence. As your senses come alive you will rediscover the pleasure of loving energy that you enjoyed as a small child.

Throughout history humanity has celebrated December as Saturnalia—the ceremony of completing the harvest. This is a time for enjoying great pleasure after the work is done. Join us for the end of the hard year and the beginning of timeless joy.

## Self-Actualization (January 02.-08.)

As your authentic self, you are capable of great achievements. The radiant curiosity you emanated as a child is the most accurate reflection of your true nature. *Self-Actualization* is an exciting seven-day event designed to restore the sweetness and simplicity of your essence. When you are ready to stop your world, this highly intensive event provides the radical honesty and sweetness you need to find your new life.

The routine of life creates a shroud that blocks the brilliance of life on our wonderful planet. People live mundane lives. Their minds are clouded with worry and injured by conflicts that blur their natural aliveness. Innate joy and creativity are held captive in a web of anxiety and anger. Melodramatic cycles of punishment and revenge pollute the psyche. Thrashing about in pain, people unconsciously hurt the people they love most.

*Self-Actualization* shows you how to shift your attention from the bored, repressed world presented by the ego to the pleasurable sensations of living in one's essence. In your quest for a peak experience, you will come face to face with your shadow. As you learn to embrace the rage and shame that bind your aliveness, you will begin the journey from that dark, painful struggle into the lightness of your actual self.

This is the most profound, profane event you will ever experience. By attending this uncompromising workshop you will have an opportunity to challenge your values and assumptions, and to profoundly alter your perceptions. The spontaneous fulfillment of your desires will enable you to renew the joy of living.
