

Going to Ibiza

Beauty is in the eye of the beholder. Yet with soft warm days and cool night breezes that caress the skin, Ibiza bathes all of the senses in a continuous embrace that transcends what the eyes can see. The light here is legendary. But it is the contrast between the warm sea and magical air that lifts us to higher states of awareness.

When we read about catastrophic heat waves, floods, and droughts in other places, it becomes clear that Ibiza was the only place on Earth for our headquarters. Discover the easy pace and slow laughter of the island people. You will soon realize that the daily bad news has nothing to do with a place like this, where serenity rules.

The Art of Seeing

A friend of ours went to renew his driver's license. But when he looked into the eyesight machine he saw only a gray blur. His companion moved closer. "Use your 3rd eye", she whispered. At that moment the line of letters he was supposed to read floated off the chart and materialized in thin air right in front of his eyes. He passed his test.

As children we learned to look by focusing our eyes on fixed objects, which froze our vision of the world. Actual *seeing* is a multisensory event that uses the eyes, brain, and flexible sets of perceptions to reveal the living world in which we live.

The first week of September we offer a 4-day magical mystery tour to show you how to dissolve the clouds of perception so that you can see the true beauty and harmony in the world around you. Many people who attend this course enjoy better eyesight, along with more brilliant colors and vivid awareness. By removing mental clutter in the mind you master the art of seeing.

If you put adrenaline in the pineal gland of a tadpole, his gland develops into an actual eye. We tap this principle to awaken another level of seeing in you. Join us for profound discovery that will add a new dimension to your life.

Communication

By far the most exciting, enlightening course we offer this year is Communication. Exciting exercises, role-play, and in-depth interviews reveal the patterns of speech, sounds, and movements that you use to convey your love and respect for other people.

Do you ever feel that you are repeating the same things over and over again without providing the help and assistance you want to share?

Spend a week with us on Ibiza, and we will give you the tools to touch other people deeply. You will also master corporate communication skills and gather the tools to create your own workshop or seminar.

Part of Something Bigger

Martin and Mia Sage created and developed *Sage University* to provide a transcendent education. Facts and figures are essential, and there are plenty of excellent colleges and universities to teach the knowledge we need to collaborate with our fellow humans.

The true joy of living, however, can never shrink down to 26 letters and 10 numbers. That is why our education flings you into conscious adventures designed to stop your perceptual world. As your mind and body dissolve into unity with the people you love and the events you share, you enjoy the transpersonal joy that forms the core of each moment of life.

You are not Alice, but you do live in a wonderland of miracles and wonders. Join us to touch Nirvana right here.

Ibiza Modeling

This has been a summer of sparkling events at Sage University. Ibiza Modeling Academy provided exquisite fashion, make-up, and catwalk training to bring out the beauty in all of the women who attended. We have been offering model training all over the world since the turn of the century. Hundreds of amateur and professional models, actors, and performers got their start here before going on to successful careers in modeling and media. Exciting courses like this prepare our clients to earn their living in this new “experience economy”, where many of us will learn our living by entertaining and enlightening other people.

Now we are looking forward to October, where we begin with the 4-day School of Rock, followed by 2 days of live stage performance in the Chautauqua Weekend. If you love the stage, then you will want to stick around for two 6-day events—Performing Arts and Film School. You can attend any of these events for 100€ per day if you sign up by September 1st, or attend all three weeks together for only 2.000€ total.

Commitment

More and more of our graduates are finding success on-screen, on-stage, and in front of the room. None of them fully believed it when we saw them as entertainers, trainers, and performers. But they took a chance and committed to the fun and discipline of public performance.

If you want to move money you have to move people to greater enthusiasm. Our playful classes and our business courses are both designed to make you a better speaker and performing artist. In these times, every business is show business. Traditional acting and singing lessons churn out cookie-cutter robots who act, sing, and dance alike. Only Sage University can help you find your unique flair.

You find your magic by committing to the discipline of performance. Set your sights on being your best, and let providence take it from there. See you on Ibiza.

The New Sexual Contract (Aug. 20.-21. - Online)

Men and women worldwide are coming together in new, exciting ways. Traditional marriage is giving way to innovative forms of dating, mating, and partnership.

So what is the new deal between lovers, partners, and friends? How do we meet? What are the rules of engagement? No one wants to be alone. We all need love and support for life. So how can we live together, earn a living, and share resources in a fair game that works for all of us?

Join us online for two days of exploration and inquiry into the nature of love and art of loving protection.

The Art of Seeing (Sept. 01.-04. Ibiza)

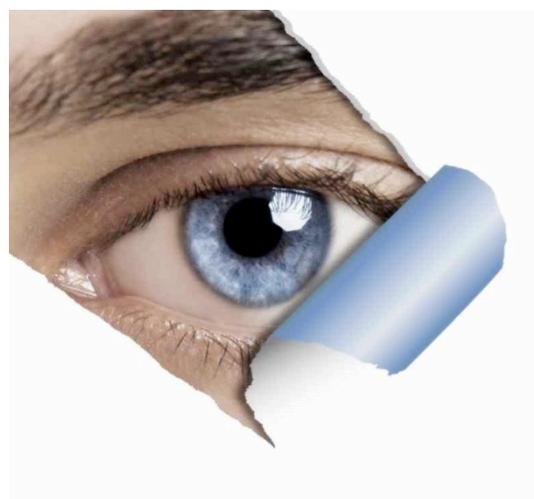

Beyond the reality you see with your eyes lies a world of infinite beauty and power. *The Art of Seeing* opens your inner vision so that you can fully appreciate every moment of this wonderful life.

Great players in any field can see details and sort through patterns of motion that give them the winning edge. Their timing seems magical. Their peak performances lift us all to higher levels of perception.

Most people only see what they expect—and they don't expect much. The boredom that underlies their suffering comes from repetition and habituation.

Opening your third eye requires deep calm together with a delightful shock, which we are happy to provide. Suddenly you wake up to unexpected love. You see the big picture. You notice the beauty in yourself and others.

If you are ready to see beyond the ordinary, contact us today to enroll in *The Art of Seeing*.

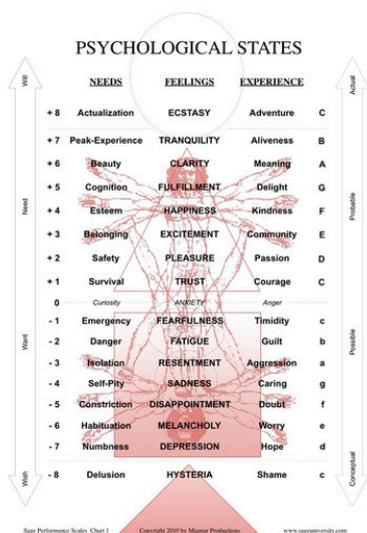

Communication (Sept. 06.-11. Ibiza)

Effective communication makes you magnetic. By communicating better you will win friends, create harmony in the home, and take your business to the next level.

Beyond the words we speak are deeper, more meaningful patterns of communication. The Sage *Communication Training* is based upon feedback loops made up of sound, movement, posture and attention. So along with new skills you will expand your awareness to encompass new dimensions of perceptiveness.

Miscommunication is the root of all the discord in your life. Misunderstandings destroy your most precious connections and cherished relationships. No one is at fault. Systems are complex. Redemption requires a whole new way of thinking and acting.

This training provides an in-depth exploration of the *Sage Performance Scales*. You will learn to shift through patterns of communication to build bridges of understanding with the people that matter most to you.

Justin Case on Tour

Justin is starting his road trip with special high-energy events in Austin, Houston, and New York, followed by guest appearances in Munich, Hamburg and Berlin. If you have trained with Justin, you know his power to transform your life. If you have performed in his theater and musical events, you are aware how his acceptance and belief can bring out aspects of your talent that you never imagined.

It is an honor for Sage University to affiliate with great trainers and leaders of Justin's caliber. Take this rare opportunity to meet him and attend his courses in one or more of the cities on his schedule:

03.-04. September - How to Talk to Men - Austin, Texas
10.-11. September – How to Talk to Men – New York

17.-18. September – Coaching from the Heart – Munich
24.-25. September – Sage on Stage – Hamburg

Don't miss this rare opportunity to spend a weekend with coaches who know how to shift you into higher consciousness and to take your friends and associates to new dimension of love and laughter.

At Sage we play, and we show pupils how to advance their careers by mastering the art of loving-kindness. While traditional schools grade their students, we measure your value by your contribution to others.

When you attend an event with Justin you feel his respect right away. His warmth and patience makes you feel good about yourself as you learn to command the stage and get your message across to your audience.
