

Live Your Dream (Aug. 01.-06.)

You appear on the screen of your mind as a physical body that consists of matter and energy. The closer you get to seeing the world as it is, the more obvious it becomes that you actually exist in the invisible connections you share with the people you love. Other people create your life with their perceptions. You fulfill their dreams through service—the one true source of happiness.

The real path to fulfillment is through devoting your attention to fulfilling the dreams of those you cherish. Millions of people strive to achieve their own prosperity and peace of mind. People who put themselves first end up alone and broke.

Live Your Dream is a powerful practice in the art of giving your love and service to others. As you cease all striving for personal gain, you discover the beauty and truth passed along by Albert Schweitzer—that the true path lies through service to your fellow humans.

Servant leaders are the ones who make a difference in the world. Let's make the world a better place. Join us on Ibiza or online to master the art of total release into the joy of sharing.

Change Your Life

Novak Djokovic was on top of the tennis world as long as he had Boris Becker for his coach. When he decided to go his own way, his career plummeted.

Transforming your life comes down to finding the coach who can take you where you want to go. The depth of your commitment determines the power of your partnership. Only when you are willing to change everything will you discover what you can really do.

You can often solve a problem or make the right decision in a single private session. Real change requires lifelong partnership.

Each summer we offer long coaching contracts at a fraction of the normal fee. Is this your year to create the life you desire?

Human Dynamics 5 Weekend Intensive

Servant leadership requires mastery of human dynamics in teams, organizations, and families. Leaders, consultants, trainers, and coaches achieve success based on how well they understand the principles of governing dynamics.

Human Dynamics is an in-depth study of human nature. We will gather online one weekend each month, beginning in November, to explore systems dynamics, game theory, and patterns of communication—the hidden forces that will determine your success or failure.

Plenty of consultants know business. Only the finest know families and teams. This is a course from the Sage graduate school, so you must apply via e-mail or Skype. If you are seriously curious, contact us for details.

When you view your life through the lens of physics, you don't actually exist as the character you play. Your true nature is far more wonderful than you can imagine.

Realizing your existence as a magnetic field is a joyous discovery. There is no individual life, no loneliness, and no reason to force your way. The entire system of life is self-organizing. As you learn to let go, the intelligence of those around you joins together with your life to bring you everything you need and desire.

What you give in life largely determines what you get. When you are generous and kind to others, many of them reciprocate. You are a part of social, magnetic, and quantum fields. No one fully understands them. But they hold us secure in their embrace. Let yourself go. Or as Obi-Wan might say, "Trust the Force, Luke".

As smart machines take over familiar jobs, more people are finding new ways to earn their living. We provide essential business and people skills to help people earn their way.

As globalization fragments the economy, creative people are adapting to the new reality by launching lean startups. Before you can earn an income you have to earn the trust of the people you serve. We show you how to put integrity and service first.

No Death, No Fear

The most important thing you can ever know is that the universe is a safe place. You know it in your bones, and in the space between the thoughts that drift through your mind.

Religions teach ideologies and science focuses on a narrow band of existence. The meaning of life is nothing compared to the zest for living it.

As our societies mature, people are dividing up into two very different camps. One half is choosing isolation. More people live alone than at any time in history. The other half is stepping out beyond the boundaries and rules of their parents and cultures. They are choosing to live life fully.

Our grandparents fought great world wars. Our parents worked hard to survive. We are the first generation to discover the power of play to earn our way.

Partnership Weekend (July 22.-23. – Santa Monica)

Live Your Dream (Aug. 01.-06. – Ibiza)

Your life is a beautiful dream. You have the potential to live any adventure you can imagine. Following your curiosity and your aliveness gives you the power to transform your life into the legend you have always wanted to live.

Every day you see worrying images on your mental screen that you take for reality. It is easy to get attached to your self-image and to the roles that society has chosen for you, and to spend your days just talking about life instead of living it. But your true nature is much more than your thoughts and actions. In the movie of your life you are the projector. You cast the meaning and substance onto the field of perceptions.

Live Your Dream is six days of celebration and training designed to restore the curiosity we all enjoyed as children. As your mind clears and your heart opens you recall your natural vitality. You begin to immerse yourself in sensations of aliveness that bring a vivid quality to your experience.

Selling them Softly (Sept. 07.-10. Online)

Selling them Softly is 4 exciting days of rehearsal in the art of winning friends and attracting loyal, enthusiastic fans. When people feel your love and respect they naturally refer their friends and families to you.

Soft selling attracts. Hard selling repels. People no longer respond to canned pitches or closing tricks. They are looking for people they can trust.

In this online 4-day interactive session you have the chance to develop new strategies through role-play, observation and uplifting feedback. You learn to sell by falling down and having fun with friends. Likewise, you master high quality selling by making mistakes with classmates who offer friendship along with the feedback you need to excel.

Forever Young (October 21.-30. Ibiza)

Your eternal face is youthful and infinitely curious. It was there when you were born, and it is there now behind the masks that have developed like the rings of a tree with each transit around the sun. You can find it with movement, touch, and special forms of feedback. It takes gentle movements and playful inner theater to shed the roles you play and the facades you have worn.

Sage Yoga is a branch of Yin (feminine) Yoga. It is a self-organizing exploration of sound, light, touch, and movement patterns enhanced by delayed video feedback images that can catch you off guard to reveal your inner beauty.

Forever Young is a 5 star spa experience on the beautiful island of Ibiza in which you explore patterns of rest and muscular release by following impulses of physical pleasure. The Mediterranean lifestyle brings vitality to your mind and body. Join us to enjoy this simple, easy path to corporal freedom.

Participating at Your Own Pace

When a particular pattern doesn't fit, you are welcome to just observe, or to create your own form of participation. Within a couple of weeks you will recall how to listen to the wisdom of your body and to live life on your own terms.

True fitness does not come from repetitions that pump up individual muscles. Body builders admire the look of muscular definition they achieve by isolating and ripping muscle tissue. But resistance training tends to build up psychological resistance that can make exercise painful and boring.

You can make movement sessions the most restful, exciting time of your day. Instead of doing things right, you quickly learn to do the right thing for you. No more follow the leader. Rehearse, instead, to develop an appetite for playful movement.

Genuine fitness is a gradual integration of circulation, skin, fascia, tendons, muscles, and bones in coherent, flowing patterns. Tiny movements of the ankles, spine, and rib cage, for example, create visible changes in the face. Soft movement soothes aches and pains, transforming uncomfortable feelings into pleasurable sensations. Slow, methodical movements restore rhythm to the parasympathetic nervous system and evoke rhyme in the sounds that resonate from the body.

No two individuals enjoy the same patterns of movements. If you enjoy restful reclining, then that is a part of your unique puzzle. If you enjoy flowing movements or dance, then you add those activities to your shopping cart. For those who enjoy machines, you can alternate between moving the equipment and allowing the equipment to move you. As your hydraulic circulation begins to pulse, your muscles engorge to give you pleasant, organic waves of sensation.
